

## BLUE CROSS LABORATORIES PVT LTD.

### QUALITY POLICY

We are committed to create **Sustainable Value** and build **Customer Trust** by offering Safe and Efficacious Modern Products of consistent Quality at Affordable prices.

We shall continuously upgrade and improve the Quality of our Products and Processes through application of new technologies and following **Quality Management System**.

We shall constantly monitor & proactively upgrade our Standards of Operations to comply with changing Regulatory requirements and meet our uncompromising adherence to the current GMP standards striving for **Zero-Defect Quality & Zero-Wastage**.

Our Employees are our assets. We shall foster **Quality Culture** and **Quality Behavior** in the organization through appropriate and continuous Regulatory and Technical Training by using internal as well as external resources.

We shall work for continuous improvement in the existing markets and entering new markets.

We are completely committed to **Environmental Protection**.

We shall support our **External Partners** to align them with our Quality Standards and Requirements.
